- Gel time (in bulk at 25 °C): 8-10 min
- Working time (at 25 °C): 6 h
- Professional use
- > Mainly recommended for gluing and repairing clear, precious and crystalline stones (ex. Sivec, Statuario and Volakas).

## WATER OIL IMPREGNATOR

Water oil-repellent treatment, natural effect. For manual application.

**Excellent anti stain properties**  
**It does not alter the breathability of the stone**  
**Natural effect**

- Material: natural stones, marbles, granites, cotto
- Appearance: opalescent liquid

> Professional use

Indoor-Outdoor

Solvent based

Wall and floor  
use

Natural effect

## WATER OIL IMPREGNATOR – FOOD SAFE

Strong water-based water-oil repellent treatment. For manual application. Ideal for compact material. Approved for food contact.

### Extra strong Easy and quick to use

- Material: marble, granite, natural stones in all finishes,
- porcelain gres in all finishes, cement
- Appearance: yellowish transparent liquid

> Professional use

Indoor-Outdoor

Water based

Wall and floor  
use

Natural effect

## COLOUR ENHANCER

Enhancer treatment, natural effect. For manual application.

**Strong**  
**Uv Resistant**  
**Water oil repellent**

- Material: marbles, granite, natural stones (limestone, travertine, rosso verona, sandstone), agglomerate
- Appearance: opalescent liquid

> Professional use

## BLACK TREATMENT PART A

The Black treatment is a product suitable to eliminate defects of black granite. It brings to darken the material making it blacker and more homogeneous.

**Uniform colouring**

**Shinier**

**Dry fast**

- Material: granite
- Appearance: homogeneous

> Professional use

## BLACK TREATMENT PART B

The Black treatment B is a liquid wax suitable to increase the black effect on polished, brushed and smooth black granite without increasing the gloss of the material. It can be used on automatic machines or manually.

**Uniform colouring**

**Dry fast**

- Material: granite
- Appearance: homogeneous

> Professional use

## **FIXBOND** — paper white , satin black , beige

Bi-component high adhesion very fast glue, for gluing marbles, ceramics, granites and agglomerates. Ideal for indoor and outdoor

**0 yellowing**  
**Super fast**  
**Invisible bonding**  
**More glass and polished**

- Mixing ratio: 2+1
- Gel time (in bulk at 25 °C): 3-5 min
- Movement time (25 °C): 15-20 min
- Working time (at 25 °C): 45-60 min
